Stephen F. Austin State University

Nacogdoches, TX

1992 - 1994

CERTIFICATIONS

Digital Media & Marketing Cert.

Duke University | Apr. 2019

Google Ads Search Certification

Google | Dec. 2018 - Dec. 2019

WORK EXPERIENCE

MARKETING PARTNER

Concentus Media Group | 2008 - Present

I am a partner in a full-service marketing agency that specializes in strategic campaigns for brand awareness, product promotion, and marketing for a diverse set of clients, including a major university, a non-profit that trains educators working with military families, and clients delivering digital workshops supporting eLearning products.

I have developed web applications and microsites for clients in numerous industries and on a variety of platforms. I am experienced with both front-end design and back-end development.

- Designed and developed countless Wordpress and ZURB client sites
- Created a sales & inventory tracking web application (using PHP, MySQL) connecting offices in 3 states to a SQL database allowing the client to track and trend data in real time
- Produced and coded web apps using PHP, HTML/CSS, JQuery & AJAX
- Designed and created CRUD applications using PHP/MySQL
- Delivered a client web app serving 130 podcasts with 10k downloads and 61 articles

WEB DEVELOPER

Capital Media Group | 2005 - 2008

I developed websites and videos for Capital Media Group. Though I was hired for my Flash development skills, I shifted more to PHP applications for better database management.

- Designed and developed a variety of websites using HTML/CSS and PHP
- Produced digital and traditional branding and marketing assets for clients
- Introduced videography and opened new revenue through web video

COMMUNITY

LEADERSHIP TEMPLE

TEMPLE, TX | 2008 - 2010

Program sponsored by the Temple Chamber of Commerce, designed to educate and grow leaders in the community. I was selected for participation from a competitive pool of candidates, completed a series of nine intensive leadership and community oriented courses, and designed, fundraised and completed a community project in order to graduate. Afterward, I took two consecutive leadership roles in the organization developing and coordinating program activities and guiding new participants toward their successful completion of the program.

President | 2010

As President, I resolved conflicts between attendees, approved programs offered by the Curriculum Chair, and revised the method for selecting and developing the community project to better reflect the type of environment found in private companies.

Curriculum Chair | 2009

As Curriculum Chair, I developed and organized our program activities including working with area companies and organizations to offer a diverse range of opportunities to the class participants in the areas of business, government, healthcare, and the military.
